	Category	Rating Scale	Comments
1)	Design		Designs within the attraction were great. Would have loved to see more of a "Front" to the attraction but, designs within were well done!
2)	Theme		Theme was the only thing that seemed off. Would love to see a flowing theme but, each scene was very unique and intense.
3)	Actors		Actors were very invested into their characters and got in your face. Enjoy the actor interaction within the haunt which intensified the experience.
4)	Scare Factor		The scare factor was definitely there. A more centralized theme would have really added to it but, overall the staff know how to deliver great scares!
5)	Overall Rating		We have provided a 4 out of 5 rating for Fear Hollow Haunted Attraction! Great job and we look forward to seeing what the future brings!

On **Friday, September 29th, 2017**, the Haunt Rater and his crew traveled to Fear Hollow! This was a first time for us at this attraction which has been around for 7 years. Fear Hollow does indeed live up to its name. Upon arrival, we truly had no idea what our experience would be like.

We entered the attraction and could see that the actors were well invested into scaring their victims! As we first entered we were greeted by a fortune teller who could not wait to tell us our fate within the walls that contained the craziest of ghouls, ghosts and more. We were chased by a demon ghost into our next area where walls had trap doors but, were unable to be found. After finding our way out, we were led to our next scene where escape was once again not an option.

Mercy was not even an option upon being taken to the next place where we were “deloused” and carted off to the den of a crazy doctor who put terror in the forefront, quite literally! He never let up and followed us, making us constantly paranoid of how long fear would follow. We would come to find that the fear would only continue on we eventually found ourselves outside once again in the middle of a small grassy area, surrounded by walls where a chain saw wielding monster continued to follow us until we made our way back inside for some final fears.

We then made our way to some clowns who were crazy and menacing. From polka-dotted rooms and matching monsters, who hid themselves quite well, to crazed clowns looking to terrify our souls, we ended our tour feeling quite lucky that we were able to survive the night.

The Haunt Rater gives Fear Hollow Haunted Attraction a 4 out of 5! It was definitely a show to remember and we can see that Fear Hollow can only go up from here with such great potential! We look forward to seeing what more this attraction can do and come up with to terrorize their victims for years to come!
