REAPERS REVENGE

On **Saturday, November 4th, 2017**, the Haunt Rater and his crew traveled north to visit our good friends at Reaper's Revenge. This year has been a stellar year for the attraction and its owner **Paul Kotran** and his staff/actors. Not only were they celebrating 9 years but, they have been made a part of "**13 Haunts**" and were inducted into the "**Haunt Rater's Hall of Scares 2017!**" On this night, we were privileged to be able to experience all of the new improvements that had been completed over the last year.

We started our night on the fan favorite **Haunted Hayride**. It was unlike any other out there! They really upped the ante for sure. As we made our way through the hayride we twisted and wended our way through scenes of true terror that bring literal chills down your spine. Just when you thought things could not get any worse your ride comes to a complete halt and security comes to escort you off of the wagon. You are then lined up in a small, yet creepy office where the boss man will grill you and find who was the one who disobeyed orders! All we will say is...when the lights go out...you will face your fears!

From there we are released to test our wits in the **Lost Carnival**. If you do not like clowns then, this is not the place for you! You will be surrounded, followed, scared straight out of your mind. The lost souls that can only be found within this dreaded land are waiting to bring others to experience and live their tortured fate. Will you join these carnies and become one of the lost souls, never to set foot in the real world ever again? Only time will tell!

If you survived the Haunted Hayride and the Lost Carnival then, you will make your way over to **Pitch Black**. This place definitely lives up to its name. Not only is it pitch black but, it is horrifying! Your senses are stripped from you. You can only hope for the light but, come to quickly realize that unless you make the dark your friend...it will become your worst enemy! All kinds of monsters, creep within these dark walls. Hidden in every place imaginable. It is like something that only comes from the deep and dark depths of your worst nightmares. You are never safe...not even in the light!

The last adventure of the evening will take you to **Sector 13**. If you feared the dreaded number "13" then, you still have much reason to fear. Sector 13 will not give you a better feeling of the number by any stretch of the imagination. The world has come under attack of a deadly virus that threatens mankind and you are about to witness the true horrors of life under a regime that will show you no mercy. You will be contained, scanned and imprisoned within the walls of Sector 13 where you will be tortured and maybe even left for dead. This place is not for the weak of heart. Even the strongest may not survive.

For those who are "too scared" to go through the attractions and don't want to experience the real thing, can wear what is known as the "wussy necklace". Though, in our opinion...that just makes you stand out to the ghouls lurking and waiting for their next victims. This place is totally awesome and there are no real words to describe Reaper's Revenge! "If you want to experience real life horror and feel true terror...then Reaper's Revenge is the place for you!" ***The Haunt Rater has given Reaper's Revenge a 6 out of 5 for a totally AWESOME experience!***
