

2017 Review Card

October 7, 2017

	Category	Rating Scale	Comments
1)	Design		Designs were very old school which was totally awesome. The details were great and it could be seen that a lot of hard work is put into it each year!
2)	Theme		Scenes were consistent, flowed well and transitioned properly from one to the next.
3)	Actors		The actors were off the wall! Creepy, scary and dead set on delivering the scares. They gave us no time to catch our breath. No Mercy! It was AWESOME! Compliment your actors on a Job Very Well Done! The final clown scene behind door #2 was way cool!
4)	Scare Factor		The scare factor was amazing as well. They had us screaming the entire way through. They did not let up, which is what we like to see.
5)	Overall Rating		The Haunt Rater has given Route 29 Haunted Farm a 6 out of 5 for an amazing job! Top Notch Haunt! – See our website for more details on rating.

On **Saturday, October 7th, 2017**, the Haunt Rater and his crew were invited out to **Route 29 Haunted Farm** and what an experience we had! The words will never describe what this attraction was able to do while we made our way through the attraction. The farm sets the right mood and the clouds overhead made it out to be a perfect night for some fright!

We did not know what to expect and when it comes to haunted attractions that we have never seen before, we do not get too excited until we are actually going through it and let us tell you...they did not miss one opportunity to scare us. They were relentless and showed us no mercy. We made our way down a hall where we looked for our room...#13! Upon finding it, we were greeted by menacing guests who wanted you as their permanent guest. We continued through the attraction, winding through tight twists and turns, with low visibility which made it easy for the monsters of the night to scare us time after time.

We were chased multiple times by chainsaw wielding maniacs, stalkers of the corn, crazed ghouls and clowns of all types. They were in our face and invaded our personal space, making our experience even more terrifying with each passing minute. These ghouls made our experience feel like we would never escape their torture and torment. There is no doubt in our minds that all monsters within the attraction knew how to give you the best scares of all!

We could not believe how quiet they all were. No matter how hard we tried to listen for our stalkers, we could not hear them or make out from whence they came. They did not make any noises prior to finding us alone in the corn. Each scene added to the mystery that was unraveling before us and the utter horror that was being revealed to us.

After traversing tight, twisting turns, going through a school bus, where we could not make out which souls were real and which ones were not. They did a great job concealing themselves from us. As we made our way to the end of the attraction we were given the opportunity to spin the wheel and see if we would get the prize behind door number one or door number two. We were lucky enough to get door number 2. Behind door number one was a single mad clown and we thought, for just a moment, that we were safe but, then as door number two opened, it could clearly be seen that our winning number was actually the wrong choice as multiple maniacal clowns danced around us, wielding chainsaws and were prepared to turn even our worst nightmares into...Frightmares!

We would definitely encourage fans to make the trip to see Route 29 Haunted Farm this year! They are great now but, we cannot wait to see what the future holds for this attraction and to see just how much more they can do to deliver greater fear into our hearts and very souls!

The Haunt Rater has given Route 29 Haunted Farm a **6 out of 5** for showing us an amazing time and for really going above and beyond, especially with an "old style" way that works very well for them and we hope this continues as we could witness, is their niche and where they effectively do their fans the greatest service...Scaring the living hell out of all who dare enter!
