

Terror Tour 2019 has officially begun for The Haunt Rater! 1st stop, Field of Screams in Mountville Pa! It has become a tradition to start our seasons with FOS. We started our night by entering The Den of Darkness then, swiftly moving onto Frightmare Asylum. Afterwards, we decided to take a stroll through Nocturnal Wasteland. To end our evening, we “relaxed” on the Haunted Hayride. Relaxed? Not likely to happen!

Den of Darkness

1st stop of the evening... Den of Darkness. As usual the Den delivered us the scares we were seeking. We were invited in by a friendly face, why not, how else are they going to lure their victims? Turn after turn, upstairs, downstairs, something was always waiting for us. Just when you didn't think it could get any scarier... I'm going to stop right there. If you want to find out what happens, you'll have to find out for yourself. Do you dare to enter the Den of Darkness? Haunt Rater Member Rob's favorite attraction of the evening.

Frightmare Asylum

After barely making it out of the Den, we ventured over to Frightmare Asylum. Frightmare was awesome and is my personal favorite of the evening. It will give you nightmares for sure! The freaks and monsters run the Asylum. Move quickly or they will make you a permanent guest. We have some new members that have joined The Haunt Rater, and it was initiation time. They had to be first in line! As we walked the narrow hallways monsters, ghouls and freaks popped out left and right. Our new members tried their hardest not to cry out! Frightmare brings your nightmares to life! Haunt Rater Members Brian and Tim's favorite attraction of the evening.

Nocturnal Wasteland

Our 3rd stop of the evening was *Nocturnal Wasteland*. I imagine this is where all the creatures that escape from *Frightmare Asylum* (if any) go. As you walk through a toxic wasteland you can hear the screams from the "guests" up ahead of us. Have they met their terrible fate? Again, new member initiation time, get to the front of the line. We push our way through, climbing in and out of old abandon vehicles, up and down sketchy stairs and across terrifying bridges. After what seemed an eternity, we clawed our way to the end. The creatures of *Nocturnal Wasteland* are waiting for you! *Haunt Rater* Members *Bill* and *Joe's* favorite attraction of the evening.

Haunted Hayride

The last and final stop before the evening. Correction, bathroom break for some of our senior members. We don't need any accidents on the hayride. Now onto the last stop for the evening, *The Haunted Hayride*! Time to relax, HAHAAHA, a demonic laugh from the *Schopf* brothers, no chance for relaxation on their hayride! The famous *Haunted Hayride* upped the scares this season by adding a brand-new scene and was it ever terrifying! However, the classics are still there, and you will never grow tired of seeing them. Our personal favorite, clowns and hillbillies. Not your style? How about a public execution?! The *Haunted Hayride* will scare you and if it doesn't scare you, it will entertain the hell out of you! One of the best ways to end an amazing night of scares!

FOS stepped it up this season, as if that were possible. Not only did they step it up within each attraction, they made additions to the midway, such as the merchandise area. *Field of Screams* receives a 5 out of 5 rating for an *Awesome Job* done by everyone, especially the actors!

Rating:  (5 out of 5)
